SITUATION SUMMARY

Cal OES SOUTHERN REGION

2019 Novel Coronavirus – Confirmed Cases in California and Emergency Repatriation

The Centers for Disease Control and Prevention (CDC) is closely monitoring an outbreak caused by a Novel (new) Coronavirus in Wuhan, Hubei Province, China.

- On 01/26/20, the California Department of Public Health confirmed that one individual in Los Angeles County and one individual in Orange County tested positive for novel coronavirus 2019 (nCoV-2019).
- The California State Warning Center (CSWC) was informed of repatriation efforts for US citizens to return to the United States due to the Novel Coronavirus outbreak in Wuhan, China. Cal OES is supporting efforts led by the California Health and Human Services Agency for emergency repatriation.

WEATHER KEY POINTS

01/29/20 - 02/04/20

Wednesday-Saturday

- Gusty north-northeast winds will continue across portions of southern CA through Friday
 - The strongest of these winds, primarily in the mountains across southern California and select valleys including the Inland Empire, will be capable of blowing down trees and power lines
 - These winds will create travel difficulties, especially for high profile vehicles
 - On Wednesday, gusty winds are also expected in the Lower Colorado River Valley, Lake Havasu, and Lake Mead, creating rough and hazardous lake conditions
- Weak storm systems will bring rain showers to northern Coastal region Wednesday and Thursday, but no significant impacts are expected
- Dry conditions elsewhere across the rest of the state with temperatures warming to above normal for late January and no significant impacts anticipated

Sunday-Tuesday

- A storm system will likely move across much of the state Sunday and Monday, bringing a quick shot of significantly colder temperatures and a chance of valley rain and mountain snowfall
- A warming and drying trend is possible late Monday into Tuesday

CALIFORNIA WEATHER IMPACTS

01/29/20 - 02/04/20
